

### Benefits

- Maximize the capacity of a RGB CCT smart driver or receiver

### Key Features

- 4 additional ports
- Slim shape allows the port expander to be hidden away easily during installation

### Product overview

The RGB CCT port expander is the perfect accessory to increase the number of lights you can connect to your RGB CCT Smart Driver or Receiver. This is especially useful for applications that require large quantities of low wattage lights, such as plinth lighting.

### Technical Specification

Voltage	24V
Cable Length	2500mm
Operating Temperature	-33°C ~ + 55°C
Material	Plastic

### Order Codes

Description	Order Code	Barcode
RGB CCT Port Expander	SE991990	5060522089377

### Mechanical Specification

Product Name	Dimensions (mm)	Weight (g)	IP Rating
RGB CCT Port Expander	H17, W33, L62	41.2	IP20
