

MARELLA 2-IN-1 MOUNTED LED CABINET

The Marella, illuminated bathroom mirror cabinet is designed to combine contemporary aesthetics with functional flexibility. Featuring high-quality LED lighting, touch-sensitive controls, and practical internal storage, it provides both elegance and convenience for modern bathrooms.

The cabinet can be surface-mounted for a sleek, architectural look with illuminated glass side panels, or recessed for a seamless, built-in appearance by removing the side panels. With adjustable shelves, dimmable and colour-tunable lighting, and an integrated shaver socket, this cabinet delivers exceptional performance and refined style in one complete solution.

KEY FEATURES
• Colour changeable lighting — Choose between warm (3000K), neutral (4000K), and cool (6000K) white to suit any mood or task
• Dimmable illumination — Easily adjust the brightness to your preferred level, with a built-in indicator light on the switch that double flashes when minimum or maximum brightness is reached
• Integrated shaver socket & USB ports — Includes a convenient shaver sock with USB ports (Type A&C) with its own on/off switch for added safety and control
• Newly designed sliding shelf brackets provide limitless adjustability along the height of the cabinet, as well as providing improved stability
• Glass side panels — Sleek, reflective glass edges for a premium finish and added light dispersion
• Touch-sensitive controls — Intuitive touch switch on the mirror face for seamless operation, available with or without illumination to suit customer preference
• Integrated demister pad — Prevents mirror misting for a clear reflection, featuring a built-in timer that automatically switches off after one hour for energy efficiency and safety
• Memory function — Remembers your chosen light colour and brightness levels, so your mirror is always set exactly how you like it — no need to readjust each time
• DTC soft-close hinges — High-quality DTC hinges feature integrated soft-close technology for smooth, quiet door operation and lasting durability
• When surface mounted, the cabinet is installed with a french cleat, which enables quick and easy mounting to the wall
