

FRONTIER

The Frontier mirror brings a bold, contemporary edge to bathroom lighting, with clean bordered detailing and a choice of black or brass finishes to suit any interior scheme. An easy-to-use touch sensor puts full control at your fingertips, allowing you to switch the mirror on or off, dim across three brightness levels, and adjust its colour temperature across a full spectrum range – all with a single touch. Built-in demister and heating pads work together to keep the glass clear, even in the steamiest conditions.

The range now extends to include a striking new pill-shaped silhouette, available in black or brass, offering the same intuitive touch control, dimming, and full spectrum CCT switching, giving you complete flexibility over both brightness and tone to suit any moment of the day.

BENEFITS	
• LED technology for long life	
• Customizable colour temperature	
• Easy to use and install	

KEY FEATURES	
• Touch Sensor Switch	
• Triotone lighting – cool, natural or warm white tones (3000K / 4500K / 6500K)	
• Memory function – automatically saves brightness and colour settings after 5 seconds	
• Integrated defogger – switches off automatically after 1 hour	
• IP44 rated for safe use in bathroom environments.	
• Dimmable lighting, adjusted via touch sensor	
• French cleat fixing for secure, level installation
